French Students Tour Europe During Summer Vacation

The group flew to Paris with Mr. Gilliam and spent a few days seeing the City of Light—strolling the Champs Elysee, cruising the Seine, eating escargots, sampling French pasteries, and climbing the Eiffel Tower. Afterward they enjoyed a stay on the Riviera and visited Rome, Florence, and Venice in Italy.

In central Europe, they stayed in Austria, Switzerland, Germany, and Holland. After a few days in England, where they visited Shakespeare's birthplace at Stratford-on-Avon and a real lived-in castle, the group flew back to the U.S. from London. Vive les vacances!

"You'll earn a fortune in your lifetime."

Part of everything you earn should be yours to save. Based on present income, what will your total earnings be by the time you're ready to retire? (Example: Age 35 — 65 — \$100 a week — \$156,000; \$200 a week — \$312,000.) Yes, a fortune! But chances are your "savings power" isn't as good as your earning power. Unless you can systematically set aside a part of what you earn, you'll have no money for emergencies, opportunities, or retirement. People's Life has the SOLUTION — a plan that helps you save regularly. (It also protects your family!)

As a People's Life representative, may I call upon you at your convenience?
